THE ELECTION YESTERDAY .- As is always the case with elections in Alexandria, that of gesterday passed off without any disorder or ighting. The only arrest made during the day was that of the young men from Washingtoo, mentioned in yesterday's Gazette, and they were discharged almost immediately, as no evidence of any infraction of the law was produced against them. The most intense present was manifested by every one in the result, and the vote polled was one of the heavlest ever east in this city. As night came on and the polls closed, the interest deepened and crowds began to collect at the Gazette and telegraph offices, anxious to hear the returns, When the favorable returns began to come in the crowds became enthusiastic and after the announcement of each return the air was rent with shouts of applause. The crowds remained at the offices named notil an early hour this morning, and as the night wore on, they became more and more enthusiastic and finally when the telegram announcing the certainty of success was received and read at the Gazette office, they became almost frantic with delight. A collection was at once taken up, powder purchased and the "soon killer," under the direction of several prominent democrats, was carried around the city, and a hundred rounds fired-twenty five in each ward. This moraing the great victors has been almost the sole theme of conversation; congratulations have been exchanged and a general smile of intenso pleasure has illuminated the countenances of all of the conservative people of the city.

FIRE-While the gentlemen in charge of the "coon killer" were engaged in firing a salute at the corner of Princess and Lee streets, about half past two o'clock this morning, they disswered that the large frame building opposite, cruerly the engine house of the Covernment Steam Fire Departmont, but lately used us a him house by Mr. S. J. Reed, was on tire. They immediately gave the alarm, but owing impression up towo that the light was caused by a bonfire, the alarm was very imperfectly transmitted and the fire department were some little time getting on the ground. When they did arrive, however, they went heartily to work and subsceeded in saving the surrounding property, but owing to the highly influmnable name of the fish house and contents it bould not be saved. A portion of the contents were tempored by croizens and fireman. The adjoining building owned and occupied by Georgeanna Day, colored, was also greatly damaged; the roof and one side being burned off. Great difficulty was expenienced by the firement owing the surrounding property. to the noise prevailing on the streets, and the coof and one side being burned off. Great difficulty was experienced by the firemen owing difficulty was experienced by the firemen owing to the sourcity of water, defective hose and the interese heat. Mr. Reed had an insurance on crops; the exact time will be announced at the his building, of \$1,500 and on his stock and sales. All growing crops will be reserved.

The sales will be for cash, as required by the fixtures of \$500, in the National Fire Insurance Company of Baltimore, of which Wise & Co. ere agents; and one of \$1,000 on his stock, in the Citizens' Insurance Company of Newark, N. J., of which S. H. Janney & Son are agents, but his loss will probably exceed all. Georgeaz been allowed to run out on the 20th ultimo. ## BY TELEGRAPH.

Springfield, Ili., November 7, says :- A mest daring attempt was made this evening by several scoundrels; to break into the vault of the Lincola monument, at this place, and steal therefrom the remains of the dead President. Some weeks ago, it was suspected that designs of this kind were premeditated and a strict and constant watch has been kept. It was thought most likely that to-night being election night and everybody busy over the election matters, would be selected for the job. Elmer Wash burn, late chief of the secret service, and United States Detective Tirrel, with several assistants were accordingly accreted in the reception room of the manument during the alternoon and evening. At 9 o'clock to-night the attempt was made; the vau't was entered, the sarcopha gus was opened and the burial case drawn out, when the detectives sprang out and by the accidental discharge of a revolver, the monsters were frightened and fled into the shrubbery. They are now being pursued, and although there is but a slight clew to their identity, they will doubtless be taken. The design was a deeply laid plan by sharp men to arrange for a ransom.

The town of Culpeper gives Tilden and the ticket 2 majority, and Hunton 3, a democratic gain of 87. Official returns from the county give the entire democratic ticket a majority of garia with efficacious guarantees under the 275, with democratic precincts to be heard from. It is estimated that the democrats will carry the conoty by a mejority of 300 and upwards, a democratic gain on any election for six years, of more than one hundred per cont. FAUQUIER.

PROBABLE DEMAND IN ENGLAND FOR AMERICAN WHEAT .- There are many indications in England of the probability of a large demand there this winter for American wheat. A writer in the London Times says that last year the British wheat crop was 22 per et. be-low an average, whilst this year it is 11 per cent telow. The amount this year available for consamption, elter deducting the wheat necessary to be retained for seed, is stated at about 72,-000,000 bushels, the average yield per agre being 25 bushels this year. The requirements of 4; o'clock, from the residence of his father, on the population for the year are estimated at 184,000,000 bushels. Therefore 112,000,000. bushels must be imported, an amount about equal to the imports of foreign wheat into Eagland during the past year. In the wheat trade the fact is demonstrated in Eagland that wheat can be imported cheaper than it can be grown. Each year there is a diminution is the acreage garn. Thus the increased yield per acre this year compared with last year, is entirely offset by the reduced surface planted in wheat, which is but 3.114,-550 acres. England now looks to the United States as her chief source of supply for foreign wheat, of which San Francisco sends her probably the greatest amount of any single port.

SOLDIERS IN PETERSBURG. -The company of United States artillery, from Fort Foote, which arrived in Petersburg, on Saturday, under command of Major Breckipridge, was quietly stationed at the Castom House, cu rious witnesses of the excitement which their presence occasioned. The officers and members were the recipients of much attention from the citizens, with whom they readily affiliated. It is stated that of the twenty-siz soldiers sent all but four are supporters of reform and Tilden. When they first came the negro radicals were disposed to be exultant, but since they have appeared so frequently on the streets in company with white citizens the colored folks have lost faith in the disposition of the government to upheld them in their war upon the The stock consists of DRESS GOODS in all company with white citizens the colored folks colored democrats.

At the country vive rally Monday night one of the guns used was manued by the soldiers who applied for permission to take that part in the demonstration.
